## SUGGESTED HAIR COLOR FORMULA

1 oz. (30 ml) The Demi 3N +  
1 oz. (30 ml) The Demi 3BV +  
2 oz. (60 ml) Paul Mitchell®  
Processing Liquid

## PREP

1. Cleanse the hair with Rare Oil Replenishing Shampoo and treat it with Rare Oil Replenishing Conditioner.
2. Mist it with Rare Oil Style Extending Primer and apply a quarter-sized amount of Rare Oil 3-in-1 Styling Cream.
3. Blow-dry the hair with the Neuro Grip and the MarulaOil Professional Extra-Large Round Brush.

## HOLIDAY STYLE

1. Create a half-moon section on the front/top part of the head shape, from the front of the right ear to the front of the left ear.
2. Create 5 rectangular subsections within the half-moon—3 on the denser, heavier side, and 2 on the lighter side.
3. Take the center section and mist it with Rare Oil Perfecting Hairspray. Place an elastic band close to the division line in this section. Continue to do this for all 5 sections. **Key point:** On the farthest sections closest to the ears, slightly overdirect them up when placing the elastic bands.
4. Take the Express Ion Curl XL and wrap the ponytails around the barrel, keeping the hair flat on the iron. Repeat this on all 5 sections, making sure to wrap and overdirect all the curls up and over to the model's right side. Clip each curl with a pin curl clip and let it cool.
5. Starting with the second farthest section on the guest's left, unclip and apply Rare Oil Treatment to the ends. Comb it through and begin to drape/sculpt the section to the right, placing hairpins as you go to hold it in place.
6. Continue to dress out and sculpt the middle section, then repeat that on the two farthest right sections. The shape should slightly drape over the forehead and subtly resemble a fingerwave. Place hairpins to hold it in place as you go.
7. Unclip the farthest section on the guest's left. Apply Rare Oil Treatment to the ends and sculpt the section across the head shape, creating an asymmetrically draped effect.
8. Insert hairpins and mist the waves with Rare Oil Perfecting Hairspray. Remove the hairpins.
9. Apply 2-3 drops of Rare Oil Treatment through the guest's ends and lengths in the back. Dress the hair with the MarulaOil Classic Dressing Brush.
